

SAFETY RECALL

ThinkPad Batteries

Lenovo is voluntarily recalling certain lithium-ion batteries manufactured for use with ThinkPad notebook computers that shipped worldwide between October, 2010 and April, 2011. Lenovo will offer customers free-of-charge replacements for all recalled batteries.

Lenovo sold the batteries with new notebook computers or as optional stand-alone or replacement battery packs.

The following battery part numbers (FRU P/N) are affected by this recall:

42T4695	42T4711	42T4798	42T4804	42T4812
42T4822	42T4828	42T4834	42T4840	42T4890

Hazard

The battery packs can overheat, posing the risk of fire and burn hazard.

Remedy

Consumers who have battery packs affected by this recall should, until the replacement battery arrives, turn off their system, immediately remove the battery, and only power the ThinkPad by plugging in the AC adapter and power cord.

Sold At

Direct to certain customers, through retail stores nationwide and online at Lenovo.com starting in October, 2010 to April, 2011. The computer products containing these battery packs range in retail price from \$350 to \$3,000. These battery packs were also sold separately as an option/accessory/replacement pack in limited quantities at a retail price of ranging from \$80-\$150.

Importer

Lenovo (United States) Inc.
